

Piping Thermowells & Sensors

Product Description

Piping Sensors

Conax Technologies Main Steamline thermocouples and RTD's offer the stability and ruggedness required in these piping locations. Made from MI cable using the highest quality materials, our sensors are designed to meet the challenge.

Piping Thermowells

Whatever your application, Conax Technologies thermowells are designed to suite your application. Our thermowells are not picked from a catalog list, but designed with the proper metallurgical and flow parameters in mind.
