

Steam Turbine Sensors & Seals

Product Description

Replacement Steam Turbine Sensors

Conax offers a complete line of OEM replacement and aftermarket equivalent sensors for steam turbines. We maintain a complete set of OEM drawings for bearing sensors, inner case sensors, outer case sensors and shell sensors (part numbers beginning with U251, U252, U253, U231, U248 and U249).

Sensors can also be manufactured and improved for any turbine manufacturer if you can provide a drawing, sketch or failed part.

U252 Series Bearing Sensor

Bearing Lube Temperature Sensor
